

## WEB DEVELOPER REQUIRED

Wayland Games Limited are looking to expand their Web Design team with a dynamic and focussed web developer to work in our head office located just outside of Southend in Essex.

Responsibilities will include designing, building, and maintaining the company's expanding range of websites and website applications.

To succeed in this position, you will need a combination of strong web development skills and commercial awareness combined with a proven ability to create exciting and original website concepts. You will be rewarded with a competitive salary, 28 days per year holiday and significant promotion opportunities for the right individual.

### The Requirements:

- Create website concepts through to production.
- Write code, either from scratch or by adapting existing website code within templates, add-ons or plugins.
- Write functional test logs and fully test the website and identify any technical problems before any deployment.
- Ensure site by designing and adhering to best security practice when coding.
- Can code using high level HTML and CSS
- Experienced in using Bootstraps for responsive coding
- Experienced in coding with PHP & Template languages such as SMARTY
- Has experience of working with e-commerce driven websites (particularly PrestaShop)
- Be able to articulate design concepts to internal stakeholders
- Good understanding of server side tools and OS such as, Web Host Manager (WHM), Cpanel, Linux, Apache, MySQL, GIT and Rollbar

**The ideal candidate:**

- Experience with SEO
- Has commercial web design and development experience
- Has an understanding of the development process
- Has a polished portfolio with examples of your work
- Is able to show the thought process behind your work
- Is more than capable of working on multiple projects simultaneously
- Is able to work autonomously and as part of a small team
- Self-motivated and problem solving mind set

**If, after reading the above specification, you feel you are an ideal candidate for the job please email us your CV along with a brief outline of what you would bring to the role as well as examples of your work to: [jobs@waylandgames.co.uk](mailto:jobs@waylandgames.co.uk)**
